# Harlem Agog Over First World Premiere; 'Rochester' To Be Seen In Stellar Role **NBC To Broadcast Affair Over Chain**

NEW YORK CITY-(SNS)-"Hollywood Goes to Harlem" is the slogan adopted by Paramount for the first world premiere of a motion picture ever held in Harlem, done only as the Hollywood experts can do it, for the formal unveiling of "Buck Benny Rides Again", the Jack Benny starring vehicle in which Eddie (Rochester) Anderson and Theresa Harris play important featured roles.

Another Star

The Harlem world premiere of the Benny-Anderson film is scheduled for Loew's Victoria Theatre on Tuesday night. April 23, one day prior to the regular opening at New York Paramount Theatre Times Square, where it is booked for a four week run. TO HAVE ALL TRIMMINGS

While plans for Harlem's first world premiere are still in the fornative state, it seems certain that Paramount intends to stage the precedent-shattering affair as the most pretentious film opening seen! in New York in years.

Present plans call for a premiere staged with all of Hollywood's familiar trimmings; the same as done for every important flicker opening at Grauman's Chinese Theatre, including high-wattage street flood lamps, grinding newseel cameras, a special coast-tocoast lobby broadcast of arrival of celebrities from the theatrical,
